

THIRD DAY OF STETTLER TRIAL

No Direct Evidence Against Prisoner Has Yet Been Produced.

COURT MET IN POLICE STABLE

Similarity of Hoof Marks the Chief Point in Crown's Case.

Starmer April 12.—The third day of the murder trial has passed and citizens are asking whether enough evidence has been produced to warrant the conviction of Soderberg. It is clear that nothing has been brought out, and the only thing to come from the defense consisted entirely of the medical evidence was concluded to night, and the case goes to the jury.

JARDINE CONFESSED.

Admitted to Being That He Murdered Lizzie Anderson of Goderich.

Goderich, April 12.—Then said something, and I admitted it and possession of it. I put my hand in my pocket and drew out a knife. I stood in the doorway and then drew out all the way across the floor just what happened then, but I went over to her and she was dead. I pulled her body away, and I never saw it after that night.

Edward Jardine, 34, having on March 11 in Goderich, Ont., confessed to the killing of his close friend, he stated that the medical evidence was concluded to night, and the case goes to the jury.

MANITOBA SWEEP BY SLEET STORM.

Seeding Operations Suspended—Telegraph Wires Broken in Many Places.

Winnipeg, April 12.—The worst storm to hit the prairies in ten years has laid throughout Manitoba and the prairie west that practically there was no work done yesterday.

Commercial business accumulated in attacks and afternoon papers were suspended. The telegraph wires were down, and many telephones and, willingly surrendered their gun which was hanging on the wall with Soderberg.

If Soderberg is not proven guilty the police will apparently be entirely at a loss to decide what one to do with the criminal in the hands of the province.

Court will sit all day on Good Friday as a determined effort will be made to close up by the end of the week. There will be hardly any testimony if the court will not dig up or more witnesses who are being held by the board, and litigants are working under the worst possible conditions. The trial of Soderberg was the cut-off today that not even Winnipeg wheat prices for the year will be affected.

Agricultural experts say that the four to six inches of snow will be of great benefit to the prairies, and new Manitoba farmers will go into their land again before next week.

Brandan, Man., April 13.—A blizzard raged here this morning, with snow falling in large flakes and drifts. All seeding operations stopped. Two inches of snow has fallen, and no indications of the storm ceasing.

HEROLD HAYES.

There was an adjournment at the opening of the afternoon session of the court, the counsel for magistrate and the two who made marks identical with those leading from the scene of the crime.

An adjournment was made to the mounted police barracks down the street, and the two adjourned together in the police stable. The place was small and the magistrates and counsel were crowded into the stable.

There was a delightful informalities to the proceedings; the young man who had been accused talked about the stable, smoking a cigarette and mingling with the crowd.

After the adjournment the court started to describe the horse, and their pecularities it was decided to take the horse to the stables, and again adjourned to the barracks yard.

The re-examination was continued while a curious crowd gathered outside.

After the adjournment the court was satisfied in their examination of the horse after returning to the stable, and the crowd had remained. Witness in number to the scene of the crime, and continued his story of tracking the horse to the corner of Soderberg's farm.

Counsel took up the bullet in the horse's hindquarters and found a blank one. Hayes said it looked like a thirty calibre bullet, and he did not say to say whether it was a Winchester or the rest of the witness. The horse was sent to the stable, and the court was next taken up. He recited the rifle which he had supposed to have been used, and the bullet which recently he could not tell. The only horse examined at that time was the one which was shot in the neck, and was in the stable and had a blanket on.

Tweddle then took up the cross-examination. He asked the horse of Leemos the day after the murder, before Corporal Davies. He had been to the stable, and then continued into the house and gathered up Leemos' papers.

"Did you see the man's coat?" asked Tweddle.

"I did not measure them, but I looked at them."

"What do you find underneath the tree?"

"Would you swear that these were the tracks of a horse as you saw down the trail?"

"No," I would not positively swear, but I am inclined to believe it."

In answer to further questions, Hayes admitted that till the man with whom he had met out of the Baker's Union, he was not a Teamster. Teamsters Union want these drivers to remain with their organization, so that they are "Teamsters."

The drivers in question, however, do not share this view regarding themselves. They insist they are "Teamsters" more than mere wagon drivers.

UNEASY IN BRANDON
RE WINNIPEG CLUB

Directors of Brandon Club in question about lack of interest shown in of what Club Will Do—Engage

Brandon, April 13.—In baseball circles here there is decided feeling of alarm among the officials and supporters of the game as to all the difficulties of the present lack of interest shown in the Brandon club in its direction. Directors of the Brandon club in discussion with the manager of the Brandon club today said that repeated efforts had been made to bring Winnipeg any information as to what is likely to be done.

"As yet it appears Winnipeg has not signed any players," he said, "but I am told that the men are ready to get to work. We will be ready to play when the Brandon team is ready."

It is understood that a representative of the Brandon club was sent to Winnipeg to get some definite information and to know what is likely to be done.

SAYS GOOD WORD FOR WALL STREET

Bishop Tuttle of Missouri Says It Provides Sinecure of Country.

Wall Street, New York, April 12.—Wall Street sat up and took notice yesterday when the Rev. S. Tuttle, Bishop of the Protestant Episcopal Church in the United States, said at the noonday Lenten service in Trinity Church:

"Stockmen, clerks and stenographers who work in the office during their luncheon hour went back to their offices and declared that the clergymen had a right to speak on the subject of such a bad place after all."

It was this language which Wall Street tried to praise it. So the words of a clergymen of the church, the sinecure of which was mentioned, were of great interest.

"There is no way," he said, "which would destroy the working of Wall Street more completely than monstrous absurdity," said Dr. Tuttle. "Notwithstanding that not one grain of maize is grown in this centre, nevertheless there are persons who hold those who furnish sinews for millions of men in action of agriculture, of products, of men who guide the transportation of millions of people, of men which sustain the lives and health of some way the people of every country in the world."

At the end of his sermon, he said that it might not be so wicked after all, when he had been told that the Rev. Mr. Wilkinson, as chairman of the Board of Directors of his open-air bank, had carried to the financial district of New York the news of the incident. The Rev. Dr. Wilkinson, like Bishop Tuttle, has contended that Wall Street is an important and worth while element.

THE DEMOCRATS AND THE TARIFF

To Pass Reciprocity Agreement and Prove for Further Reductions and Relief in Tariff

Washington, D.C., April 12.—Two of the tariff measures which the Democratic House expects to pass in advance of any general tariff bill will be introduced by Chairman Underwood of the committee of ways and means. They are the Canadian reciprocity bill and the bill containing the identical lines of the McCall bill passed last session, except for a clause authorizing the president to make negotiations for reciprocity with Canadian articles not covered by the existing tariff. The bill will be voted on the free list about 100 articles now deductible under the general tariff.

The free list bill is designed to placate the farmers for agricultural losses suffered by the signing of the Canadian agreement, but it contains also some food stuffs and boats and ships.

Pioves, hawks, headers, harvesters, reapers, agricultural tools and ploughing machines, cotton gin, farm wagons, farm carts and all other agricultural implements, including machinery for baling, bagging for cotton, gunny cloth and fabrics suitable for baling cotton, hardware, tools for agricultural products, hoop or band iron or steel for holding cotton, wire for haws, hawks, headers, and cutters, ploughs, grain leather, buff, split, rough or sole leather, bend or helting leather, hounds and other harness, leather and leather for manufactured articles, barbs, and fence wire, wire rods, wire strung on muntins, wire mesh and mesh of all kinds, fresh salted, pickled, dried, smoked, dressed or undressed, dried, salted, pickled, or any manner, bacon, ham, sausages, lard, lard compound, lard substitutes, animal fat, lard oil, mutton, wheat, rye, flour, bran, middlings, and other offals of grain, oatmeal and flour, dried, salted, pickled, fresh, foods, biscuits, bread, waters, and similar articles not sweetened, small round logs, small round timber used for spars or in building wharves, shingles, laths, fascines, brush, broken stone, and other lumber rough or dressed, except ebony, mahogany, rosewood, and other tropical woods, sawing machines and salt complete the free list.

Underwood continues as to what course will be pursued in the Senate with reference to the Canadian reciprocity bill when it comes before that body, possibly next week. Senator Penrose, who will become the Senate chairman on finance, is friendly to the bill and will take favorable action. The friends of the bill also make a decided gain in the absence of Senator Hale from the committee. He not only opposed the

bill but would obstruct it in the Senate.

Senator Bailey, who moves up to the place of senior minority member of the committee, is opposed to having it amended. Senator Cummins, who probably will have one of the most important places on the committee, also will seek to have the measure amended, but he is apt to believe that it is in the right point of view. With the bill once before the Senate a fair long contest will be made to get it through.

TWENTY-FOUR PEOPLE KILLED BY TORNADO

Terrible Storm Swept Parts of Missouri, Kansas and Oklahoma—Buildings Wrecked. Many Injured.

Hig Heart, Oklahoma, April 12.—Heavy winds扫s, attaining a velocity of a tornado in some sections, and followed by rain, hail and lightning swept across Western Missouri, Kansas and Oklahoma today, killing twenty-four persons, destroying two thousand square miles of property, persons, wrecking scores of buildings, breaking telephone and telegraph wire in the territory out of commission.

WEETASKIWIN.

Wetaskiwin News Service.

The annual meeting of the Wetaskiwin branch of the American Legion was held in the city hall on Monday evening with a representative attendance.

Dr. G. H. Bradfield, president, the chair, and Mr. H. Odell, and secretary.

After a lengthy discussion as to the progress being made in the organization of the Legion for Wetaskiwin, a strong resolution was unanimously passed urging the members of the Legion to use all in their power to hurry the matter along. The question of a port of entry was discussed and after thorough consideration, another resolution was carried unanimously, that the Legion be requested to promise to do all he could for Wetaskiwin in this matter, and request the minister of customs to constantly before the minister of customs.

Until the above matters are settled, the Legion will not have monthly meetings of the association.

The election of officers resulted as follows: pres., Mr. G. H. Bradfield; V.Pres., H. J. Montgomery; vice-president, Dr. T. H. Stevenson; secy., Mr. C. E. McLean; treasurer, Mrs. Thos. Toreson, A. S. Roach, L. D. Montgomery, V. C. French, G. Gross, Nils Schmidt, Mr. J. A. Alexander, A. E. Kux, C. P. Sealund, J. J. Christie, Graham, C. D. Edmund, and Dr. Guido.

Adj. Gen., Mr. A. L. Clegg, W. J. Logue, Mr. G. H. Bradfield, pres. of the C.P.R. agent, Mr. C. C. Thompson, pres. of the waterworks and sewerage systems, went to Edmonton on Monday evening to meet the delegation of the association.

The city is anxious to proceed with the construction of the system as proposed by the C.P.R. agent.

Mr. G. H. Wilson, the new C.P.R. agent, has arrived and assumed his new duties.

Bank Clearings for the Week Show An Increase of Sixty-One Per Cent.

Edmonton's bank clearings for the week ending Thursday totalled \$2,083,741, as against a total of \$1,299,208 for the corresponding week of 1910. The net increase is \$794,533, or 61 per cent. This great increase is an indication that the volume of business upon which the clearings depend still continues to grow at the rate which has placed Edmonton at the head of all the cities of Canada for over half a year in proportionate increase of bank clearings.

MINE MACHINERY.

New Equipment Purchased for Toled Coal Co.—Mr. Taylor Resigns.

That before the end of the summer machinery will be installed at the mines of the Toled Coal Co. which will give an output of one thousand tons per day, was the announcement made to the Bulletin by Chas. Taylor, the company's manager, who returned to his office yesterday after a vacation which he undertook two months ago for the purpose of purchasing the equipment required. The cost of the equipment, he said, had been increased by \$10,000 upon this addition to the plant which will be completed in time to be installed immediately upon its arrival and will be in operation before the end of the month. The new equipment will include a land dredge, the only machine of its kind on the North American continent. The machine is a modern invention and was designed for use in Germany in making roads from a deposit of coal a layer of earth being buried in depth. The coal bed at Toled lies about 100 feet below the surface of the ground. The dredge will remove 15,500 cubic yards of soil per day. The remainder of the machinery will consist of Chinese labor which will be used in the mining of the coal after the layer of earth had been stripped from the deposit.

The mine, will be one of the few mines in the west where manual labor will be used in the handling of modern machinery. It comprises 80 acres. For some time past very effective work has been done in China which has been done by means of a steam shovel.

Mr. Taylor speaks with enthusiasm of his first trip to England. "I have to confess that I have been obliged to return to the Old Country which I had previously accepted without question. Now that I have seen the life and achievements of the people, I am ready to take my

hat off to England and the English."

"On this side it is said that the Englishmen are slow. Is it true that they do not move quickly, but when they move it is to get somewhere? I have been in the great engineering works of the United States and I am inclined to believe that the men I met in similar works in England was that they were inferior to those in comparison with those on this side."

Mr. Taylor was very warm in his appreciation of the efforts of the Canadian visitors in London by the officers of the Grand Trunk Pacific Company. Cockspur street, he states they are splendidly equipped rest rooms are at their service.

Chinaman Suicided.

Winnipeg, April 12.—A verdict of suicide was returned at the inquest into the death of Toy Chang, a Chinese merchant here. He is said to have been in debt to the tune of \$1,000 over the last six months and though a large sum of money was found in the safe. It is said that this was the mother of the suicide. Chang had in hand, but which being illegal was naturally kept absolutely secret.

The suit was to recover the difference between the price paid and what it would have been if the grain had made the proper delivery.

To this the plaintiff agreed to pay the necessary costs, and, as for inspection, the defendant could not take advantage of the fact that the grain would have been inspected as a matter of course if it had been correct assessment of damage.

To this the plaintiff agreed to pay the necessary costs, and, as for inspection, the defendant could not take advantage of the fact that the grain would have been inspected as a matter of course if it had been correct assessment of damage.

When the case was heard before Judge Murphy it was gone into at great length and the plaintiff produced wealth of detail that the hearing took twenty-five days. The decision then was given in favour of the plaintiff awarding them \$14,400. The appeal was heard in Victoria before the Honourable Justice Johnstone and Galler. Their decision was again for the plaintiff unanimously.

BORAH LAW ON THE TREATY.

Canadian Member of British Parliament Devises With Japanese Treaty.

London, April 12.—Hon. Law M. P. speaking at Dulwich, reflected at length on the proposed Japanese treaty, pointing out how the most favored nations clause failed with regard to the matter of trade with Japan, while the mother country did not receive equality of treatment with other nations.

The Canadian member of parliament, in his speech, says the United States still hopes to secure a wider commercial market for its products than does Japan, the other hand Canada was looking to the mother country for the same trade.

Premier Laurier intends once again to bring forward the offer of precipitation at the forthcoming imperial conference, while Sir Edward Foster Fielder's statement shows that the Dominion is ready to consider a further revision of the mercantile code enjoyed by British goods if only Britain is prepared to grasp the hand of friendship and to enter into a common nation. It is quite possible, affirms the Post, to so strengthen the ties between the two countries that the battle banner against the forces employed to drag Canada more deeply into the meshes of the continental policy of the United States.

little information as to measurements.

"Half a mile and 100 yards."

"And at what time?"

"Almost three weeks from the murder."

"Why on the 11th didn't you commence at the tree?"

"The snow and mud had made the tracks unreliable."

"Did you get measurements of the hind feet?"

"I just measured front foot."

"Did you think you were following a two-legged horse?"

"The tracks were plainer of the front feet."

"What was the cause of the horses being seized in front?"

"Nature, I suppose."

"Assisted by what?"

"Tweedie examined the witness closely on the topography of the trail, and which the witness described with some minuteness. Tweedie asked him to describe the trail on the night of the murder that he would have to go very slowly, but that others would not admit, that he himself would not admit, that he would find the trail."

"You are nothing suspicious when you say that?"

"No; Alex looked sick."

Geo. Lefevre.

Geo. Lefevre, the grocer of London, was next called. Shortly after the murder he had been arrested and was held in custody until morning after the murder. Filatress had come to his house and they went up to the Lemire house. They found a man's track outside the house at the time when the shot had apparently been fired. It was believed to have been made by a boot with a heel. They followed the tracks to the brush where they had been tied to a poplar tree. Lefevre was held in custody for fifteen years and freed in 1905.

The tracks which he followed on the morning after the murder was one continuous trail, which he traced for the feet of "Girafe" several days ago.

He did not like to say that the tracks were caused by her feet.

COSTEL GRAIN LAW SUIT.

Damages Awarded for Non-Fulfillment of Contract.

Vancouver, April 12.—A case in which the costs awarded amount to twice as much as the verdict was decided in the Appeal Court today. The action is brought by Vancouver Milling and Grain Co., Ltd., against Pacific Elevated Company, limited, which came from Winnipeg and the Pacific Northwest, who had contracted to supply wheat for the construction of a grain elevator at Vancouver. An award of \$14,400 was made in the first hearing, and this was confirmed on appeal.
